Tools Preferences Import Export New Add

Welcome to VirtualBox!

The left part of application window contains global tools and lists all virtual machines and virtual machine groups on your computer. You can import, add and create new VMs using corresponding toolbar buttons. You can popup a tools of currently selected element using corresponding element button.

You can press the **F1** key to get instant help, or visit www.virtualbox.org for more information and latest news.

Please choose Experience Mode!

By default, the VirtualBox GUI is hiding some options, tools and wizards.

The **Basic Mode** is intended for those users who are not interested in advanced functionality and prefer a simpler, cleaner interface.

The **Expert Mode** is intended for experienced users who wish to utilize all VirtualBox functionality.

You can choose whether you are a beginner or experienced user by selecting required option at the right. This choice can always be changed in Global Preferences or Machine Settings windows.
